Professional Summary

Senior Mobile Application Developer with 9+ years of experience building and managing consumer mobile applications using React Native and native iOS technologies. Expertise in high-performance, scalable mobile architecture, CI/CD automation, API integration, and secure mobile development. Experienced in aligning mobile engineering practices with DevOps, configuration management, release guidelines, and security governance standards in fast-paced environments.

Technical Skills

Mobile Development React Native, JavaScript, TypeScript, Swift, SwiftUI, UIKit, Kotlin, Cross-platform mobile applications, Performance optimization, Client-facing mobile applications

DevOps & CI/CD CI/CD (Continuous Integration / Continuous Deployment), DevOps automation, Release Management, Configuration Management, EAS, Git-based workflows, Build and deployment pipelines, Azure DevOps (transferable pipeline experience)

Backend & API Integration REST APIs, GraphQL, Secure API Integration, AWS Lambda, Firebase, API development, Downstream system integration patterns

Security & Governance Mobile Security Best Practices, Secure data handling, Authentication workflows, App Store configuration and developer account management, Documentation and deployment procedures, Alignment with security and data privacy guidelines

Testing & Quality Engineering Unit testing, System Integration Testing, Jest, XCTest, Cross-platform testing, Regression testing

Tools & Platforms AWS, Lambda, Firebase, Stripe payments, Git, Expo, CoreData

Professional Experience

Art Flaneur | Full Stack Developer (Freelance) | Melbourne, VIC | Nov 2025 – Present

- Architected and maintained a client-facing mobile ticketing system integrated with secure backend services and downstream applications.
- Engineered configuration changes to resolve GraphQL payment service build failures, improving reliability of Dev and Test environments.
- Implemented unit testing and system integration testing to ensure regression-free deployments aligned with structured release processes.
- Standardized local development workflows and deployment procedures to reduce reliance on cloud-only environments.
- Maintained documentation aligned with development and deployment standards.

Business Local | Full Stack Developer | Melbourne, VIC | Jul 2025 – Nov 2025

- Integrated Android mobile application with backend APIs using structured API integration patterns.
- Delivered real-time communication functionality using WebSocket-based solutions to enhance responsiveness and user experience.
- Collaborated with cross-functional teams to ensure seamless backend–frontend integration and application performance optimization.
- Contributed within Agile sprint cycles, adapting to evolving priorities in a fast-paced business environment.

Kois.ai | Senior React Native Developer | Melbourne, VIC | Jun 2024 – Dec 2024

- Built and maintained high-performance, scalable mobile applications using React Native across Android and iOS.
- Implemented Clean Architecture and MVVM patterns to support maintainability and governance standards.
- Integrated mobile apps with backend services through secure API integration.
- Led code reviews and established best practices for mobile app development aligned with quality and configuration management standards.
- Contributed to DevOps automation improvements and structured deployment workflows.

QBurst Technologies | Lead Software Developer – iOS | Kochi | Aug 2022 – Jan 2024

- Led iOS development initiatives, optimizing application performance and responsiveness across devices.
- Governed code quality standards through structured reviews and mentoring.
- Collaborated with UI and backend teams to deliver end-to-end mobile solutions for enterprise clients.
- Contributed to structured release and change management processes.

PinMicro | Senior Mobile Developer | Kochi | Jun 2021 – Jul 2022

- Engineered BLE and UWB integrations for enterprise-grade mobile applications.
- Designed offline-first mobile architecture using CoreData to ensure reliable data handling.
- Managed App Store configuration, developer account processes, and release submissions with high first-time approval rate.
- Optimized performance and battery-level monitoring features for enhanced user experience.

Logical Steps Interactive Solutions | Mobile Application Developer | Kochi | Dec 2015 – Jun 2021

- Developed and maintained consumer mobile applications for iOS and React Native platforms.
- Integrated push notifications, video calling, and secure API-driven features.
- Managed App Store deployments, release documentation, and ongoing software maintenance.
- Collaborated across teams to deliver user-friendly mobile solutions aligned with client requirements.

Education

Bachelor of Electronics and Communication Engineering Mahatma Gandhi University | 2010 – 2014
